- The most recent on-site monitoring review was conducted 05/03/2009 to 05/08/2009 by the Administration for Children and Families. NORWESCAP Head Start and Early Head Start Programs were determined to be in compliance with all Head Start Program Performance Standards, laws, regulations, and policy requirements.
- The most recent financial audit had no findings.
- Parents were involved in all areas of the program. Parents volunteered in the classroom, served on Parent Committees and served as representatives on the Policy Council. Special events such as those listed below were planned by parents and staff:  
 Book Fairs  
 Arts and Craft activities  
 Picnics  
 Dinners  
 Guest speakers at Parent Meetings with parent selected topics  
 Parenting Classes  
 Ice Cream Socials  
 Shop Till You Drop Days (free rummage sales)  
 All activities were well attended by mothers and fathers.
- The curriculum process prepares children for kindergarten. After an initial assessment, using the Early Screening Inventory, teachers individualize their lesson plans by setting goals to meet the needs of each child. For children transitioning to kindergarten this includes skills in the areas of literacy (pre-reading and pre-writing) problem solving (cause and effect and predictions), math (counting and number awareness), and social skills.  
 Throughout the year the goals and accomplishments are updated and reviewed with each child's parents.
